

Mobile Ticketing

REJIS

Automated Traffic Citations

Mobile Ticketing can automate the generation of a ticket and serves as a way to electronically update other REJIS systems. When used in a mobile environment, the preparation of traffic citations, summons, and parking tickets is automated by using data returned from vehicle registration and driver history records, to populate the ticket form. When paper tickets have already been prepared, they can still be entered in Mobile Ticketing to allow reports on enforcement activity to include all tickets issued by the agency. In either environment, selected data entered on the first ticket record can be copied to create additional tickets for the same individual. When a ticket is approved, the data entered in Mobile Ticketing can be exported to generate a case entry in the IMDSPlus court system, PAMS prosecutor system, or Show Me Courts.

Benefits and Features

- Supports the reuse of data to minimize errors and improve efficiency in the ticket generation process.
- Use state driver history and vehicle registration records to populate the ticket.
- Copy ticket feature enables effortless second and third ticket creation.
- Use to start other law enforcement records (FIR, Traffic Analysis).
- Produces a legible original ticket for subject.
- Transfers data to the IMDSPlus court management system and Prosecuting Attorney Management System (PAMS).
- Supports generation of reports on officer / enforcement activity.
- Allows for agency administrator to customize selected features and control access.
- Allows individual officers to customize certain functions to make their use of the application more efficient.
- Reduces administrative overhead associated with ticket number accountability.
- Allows for customization of the ticket approval process in the agency
- Eliminates need for special form printing and associated storage of forms management system apply.

Mobile Ticketing Costs

- The Mobile Ticketing software, its use, associated data storage, training, and support are provided at no charge to agencies that have a subscription for REJIS' basic law enforcement services (LEWeb).
- There is a one-time set-up fee for activating Mobile Ticketing and associated interfaces.
- To use in a mobile environment a printer, vehicle mounting device, and supplies are required. The agency is responsible for any costs associated with the printing of tickets (acquisition, maintenance/repair, supplies).
- When used in conjunction with a wireless terminal device the agency is responsible for any charges associated with that service.
- If Mobile Ticketing is used in conjunction with a REJIS court management system the transfer of data from Mobile Ticketing to the court system is provided at no charge, however, standard fees for use of the court management system apply.

The REJIS Commission is a local government agency created to "serve the public interest through delivering quality, cost-effective technology services to the justice community and to government and quasi-government agencies." REJIS' primary focus is to provide record management services to law enforcement, courts and corrections agencies at the local, state and federal levels. This includes interfaces to the Missouri State Highway Patrol MULES system; Missouri Department of Revenue (DOR); the National Crime Information Center (NCIC); the Kansas KCJIS and KDOR; and Nlets networks. REJIS was founded in 1974 under a cooperative agreement between St. Louis County and the City of St. Louis. Primarily concentrated in the metropolitan St. Louis and Kansas City areas, we service criminal justice agencies in Missouri, Kansas and Illinois.

REJIS services include:

- Development of custom applications
- Installation and support of custom and commercially available software
- Custom interfaces
- IT Support Service
- Data center outsourcing
- Network, training and help desk support

REJIS has approximately 140 employees located at three sites. Most of our staff and equipment are based at the REJIS building, in the Central West End of St. Louis.

For additional information on REJIS services, contact your REJIS Client Services Representative or the REJIS Help Desk (314-535-9497 or 1-888-923-7255).
